Cash Register	p. 5			Placed on purchase list	
Coins/Change/Metal Discs	p. 23 p. 13		Can we also get a bag that we can shake these in?	Created, placed with sound box	
Hand Bells Drum Sticks	p. 14 & p. 21	Maybe something to elevate the hand bell to imitate a door chime, I'd like for us to be able to play with the positions of the bell	Can we easily remove and re-insert the internal clapper?	Handbell found. The internal clapper isn't so easily removed, but if it's excess noise when it's not being used that you're worried about, there are other ways we can work around it, like hand muting, an internal covering pad we can slide over it, or a very cushioned surface	
Something to drop in shock	p. 21 (Sisters gasp) p. 68 (Iraq)	Something to emphasize the gasp, metal lid that reverberates?		I found a metal vase that might work well, I can also look for more options next time we go to the warehouse There are some great options in the props loft. I've cut a few samples that you can try, and we can cut a bigger sample for the performer once you've made your decision. Placed on purchase list
